**SATURDAY HOLIDAYS
BLOCKED BY QUIBBLE**

Government Clerks Maintain Law Says
"Should," that Powers that Be
Interpret It "May."

The difference between "may" and
"should" is the barrier which stands be-
tween the government clerks of Wash-
ington and the Saturday half-holiday
the year around for which they are
pleading.

The officers of the National League of
Government Employees insist that the
President "should" give them the half-
day all the year, and declare that his
action in withholding it is illegal. This
is how the barrier, consisting of a single
word, arose:

When President Roosevelt was in the
White House he instructed Mr. Mc-
Reynolds, then Acting Attorney Gen-
eral, now a justice of the United States
Supreme Court, to render an opinion on
the question. Mr. McReynolds admitted
that the Act of Congress of 1902 made
every Saturday after 12 o'clock noon a
legal holiday. He so framed his opinion

however, as to read that the President
was "not obliged to require work by
such parties after the hour of noon on
Saturdays."

wife was driven from Russia thirty years
ago.

A. N. Brady Left \$87,000,000.
Albany, May 7.—The first accounting
of the executors of Anthony N. Brady,
of Albany, filed in Surrogate's Court,
values the estate of the financier at "up-
ward of \$87,000,000." The transfer tax
paid the State comptroller amounted to
\$2,827,554.

Hope, which are not recognizable in the
form we prefer, were even for them-
selves as a vegetable by the Romans of
old, and still are by the Bavarians who
choose, rather than the blossom, the
tender top shoots of the plant and pre-
pare them in much the form of an as-
paragus salad.

**BLUE RIDGE COUNTRY
IDEAL FOR CAMPERS**

Southern Railway Issues Pamphlet Set-
ting Out Attractions of Summer
Life in North Carolina.

The Southern Railway has recently
issued an attractive pamphlet setting
forth the delights of "Camping" on
Mount Mitchell, in Western North Caro-
lina, and other places in the National
Forest, that will make pleasant the
long hot months of summer.

Camping during the summer months
in the North, East and West always
has been popular. The Blue Ridge
mountains of North Carolina are said
to be lacking in none of the features
of interest or value possessed by the
better known camping grounds. The
opportunity to camp on Mount Mitchell
has been provided through its crea-
tion as a national forest by the United
States.

The Mount Mitchell forest has an
altitude ranging from 2,000 to 6,000

feet and lies mainly on the north
of the tracks of the Southern Railway.
There are deep and dark forests of
grand old trees, rocky declivities and
steep ravines, sloping hillside, trick-
ling mountain rills and larger streams
furnishing crystal clear water. The
climate is said to be ideal for out-
door existence.

PISTOL PLAY IN BANK.

Airey Threatened Policeman, Stab-
bed Him and Was Shot.

Columbus, Ohio, May 7.—After causing
a panic in the Ohio National Bank by
flourishing a revolver and pointing it
at Policeman Charles W. Smith, over
the head of Emil Kiesewetter, president
of the bank, George Airey, aged 58, to-
day stabbed the policeman when taken
to police headquarters, and later was
shot, but not killed, by the policeman
when he attempted to escape.

Airey went to the bank and demanded
that President Kiesewetter secure an
\$800 certificate of deposit which Airey has
up in Charleston, W. Va., as bond for
his appearance on a charge of stabbing.
President Kiesewetter called the police
and the night followed.
